A more sustainable future

"Step by step" is our mantra for sustainability. It's characterised by two pillars: a commitment to innovation and sustainability; and a belief that small steps collectively make a big difference.

Adopting large-format bathroom amenities reduces plastic waste.

Using biodegradable takeaway coffee cups reduces our impact on the environment when they are correctly composted.

Our bathroom amenities use plant-based ingredients whose sourcing does not negatively impact their ecosystem.

Aerated shower heads can help reduce water consumption compared to a standard shower head.

The filling of our indulgent bedding is made from 100% recycled materials.
